AAF

AUSTRALIAN ALUMINIUM FINISHING

WE DO MORE THAN FINISH ALUMINIUM, WE SUPPLY & MANAGE IT TOO

AAF LOGISTICS. WHAT WE DO.

At AAF, our logistics service is designed to make life easy and cost effective for you. Our integrated offer means we focus on managing the whole process of delivering fast, high quality finished aluminium with significant cost savings for your project or ongoing supply.

The cost benefits of using AAF logistic services are many. We can reduce overheads and labour costs and reduce shipping costs. With our integrated stock and finishing systems, AAF can seamlessly manage your metal supply and finishing.

AAF offer 20 years' experience in aluminium extrusion logistics, and through existing relationships with multiple mills locally and overseas, can ensure the most competitive and quality fit for purpose solution.

Here are the services AAF Logistics can offer:

- We can manage your extruded aluminium stock by financing, ordering or controlling the physical management of your inventory
- We can seamlessly integrate your finishing orders with stock control in real time
- We can improve your customer service by having stock close to the finishing process

AAF Logistics Industry services can also provide:

- Shower screens and wardrobe manufacturers
- Picture frame and display frame fabricators
- Commercial and industrial curtain wall manufacturers
- Architectural window and door manufacturers
- Other product fabricators using extruded aluminium
- Exclusive sections
- Security fabricators
- Transport Industry

AAF's Physical Inventory Warehouse's provide:

- Storage facilities in Sydney, Melbourne and Brisbane
- Up-to-date equipment specially designed to handle long length extrusions and minimize damage
- Stock accountability through regular cycle counts and stock takes
- FIFO picking to maintain good stock quality

AAF Logistics Management Information System enables:

- Access your stock information in real time through a secured password web interface
- Directly placing your finishing orders into our system
- Access to reports and analysis that offer you insights on improving service to your customers
